

Learn More about our Services

- Once your cattle arrive they begin our vaccination protocol.
- After they are processed they are placed into our Fresh Cattle pens for 5 to 7 days.
- We feed your cattle a custom blended 16% feed and a liquid syrup with Bio Moss added.
- After their stay in the fresh cattle pens they are moved to grass filled pens with lots of shade.
- Our Health riders ride pens twice daily including weekends. We never take a day off at Charlie Creek Livestock.
- We maintain your records using the latest software.
- All staff are BQA certified in Stocker/Backgrounding & Feedlot

Our Goal is to build equity in your cattle with the confidence they are ready for the next step!

Thank you for letting us be your Head Start
